Proprietary electors of the town of Vulcan will be asked to vote, April 14, on by-laws 306 and 307 of the town, which provide for the purchase of 91.5 acres of land on the west side of town, for recreational purposes, and the sale of the 40 acres of land on the south side which had previously been bought for this purpose.

Various organizations of the town, interested in promoting base ball, golf and other sports, expressed the opinion that the original 40 acres purchased did not lend itself, particularly in the matter of drainage, to a baseball park and, looking to the future, it was not large enough for a golf course, tennis courts and other recreational facilities that are badly needed in Vulcan.

The 91.5 acres owned by Howard Spaeth on the west side of town was offered to the town as a block at the price of \$100 per acre and at a special meeting the council passed a by-law, subject to the approval of the ratepayers, to purchase this area for present and future recreational needs of the town. At the regular meeting Monday of this week, a second by-law—to offer for sale the 40 acres on the south side of town, which had already been purchased from C. M. Allen, was passed, also subject to the approval of the ratepayers.

First readings have been given both by-laws and the approval of a majority of the ratepayers voting on April 14 is needed before they can be put into effect. Voting will be from 10 a.m. to 7 p.m. at the new town office and Mrs. E. M. Farr has been named as returning officer.

Plan Organization Of Little League Baseball

Meetings are presently being held throughout this area with the object of forming "Little League" baseball teams, composed of players 12 years of age and under.

At Champion and Carmangay, the Lions Clubs of those towns have undertaken sponsorship of the teams and it is hoped to have sponsored teams in Vulcan and Barons as well and possibly in Brant.

If efforts to form the local league are successful, it will become affiliated with "Little League Baseball Inc.", an organization now operating throughout the United States and Canada for the purpose of encouraging and assisting young boys to enjoy the sport of baseball.

In 1953 there were 2,826 leagues, 11,837 teams, 178,000 boys on the rosters of "first teams" and an additional 80,000 boys on "farm teams," all affiliated with the organization.

Minister Returns From Jamaica

Mr. and Mrs. J. R. Chapman were welcomed home from Jamaica by the Vulcan Church of Christ at a box social last Monday night.

The Chapmans left in late January for an extended speaking tour of the Island in the British West Indies. During their three weeks stay on the Island they spoke in a number of the native churches and had the rare experience of living among the native people in the mountains for most of the time.

Their host was the Clifford Edwards family, a native Jamaican, trained in the Alberta Bible College in Calgary. Mr. Chapman was one of the men responsible for bringing Mr. Edwards to Canada in 1947 and acted as his personal advisor during his stay here, and the Vulcan church ordained him to the ministry and returned him to his own people in co-operation with a number of other churches.

The couple travelled over most of the Island and saw a number of the historical places of the western hemisphere. Among these places was Discovery Bay where Columbus landed in 1496, the ancient site of Port Royal, the first buildings and bridges built by the Europeans in the early 1500's.

Mr. Chapman will combine a number of their experiences and the things they saw as illustrations in his next few sermons. This Sunday he will speak upon "We Saw Jamaica."

A few games were played after which a short meeting was held to determine the possibility of forming a Young Adults Club of the district. All those interested were asked to attend a meeting on March 2 in the basement of the United Church. A delicious lunch was served and with the singing of Auld Lang Syne a most enjoyable evening ended.

BERRYWATER

Saturday evening was the date for a party honoring Mr. and Mrs. Wilson Oldfield, when 70 of their country neighbors and friends gathered at their new home in Vulcan to tender them a combined house-warming and farewell party. The evening was spent in playing games, under the leadership of Doug Smith, who kept a continuous game rolling, giving much merriment to all. Later, lunch was served by visiting ladies and following this Allan Sinclair, on behalf of those assembled, presented Mr. and Mrs. Oldfield with an electric kitchen clock which automatically sets the day, the week and the month. Also a nicely bound guest book, in which all the guests entered their names, was presented to the guests of honor. Mr. and Mrs. Oldfield thanked their friends for the party and gifts and extended to each an invitation to come again.

Mrs. Roy McIntyre accompanied by Mr. and Mrs. Louie Palmer were High River visitors Tuesday. Mr. and Mrs. Reg Stein were Calgary visitors on Monday where they attended the funeral of Tilly Fisher. Later they visited with their daughter, Mary, at the Junior Red Cross hospital and report she is now out of measles quarantine. They hope to bring her home on Friday.

Mr. and Mrs. Lorne Healy were recent Calgary visitors and were accompanied by their son Keith and his friend of Calgary.

Hugh and Miss Gladys Baden spent Sunday as guests at the Vic Bertrand home at Milo.

Mr. and Mrs. H. C. Douglass were Calgary visitors last week. Recent guests at the Nick Huculak home were Walter, Bill and Eunice Huculak of Shipman, Sask. Sunday guests were Miss Monica Sterling and Ray Millard of Stettler.

Bobby Huculak is a patient in the Vulcan hospital and we wish him a speedy recovery.

Mr. and Mrs. Tom Webber Sr. and John, and Mr. and Mrs. Willis McIntyre and family were Sunday guests at the Pat Laughlin home at Mossleigh.

Mrs. Jack Smith is spending the week in Calgary, where she is visiting with her sister, who is a patient in the San.

Mrs. H. Douglass and Mrs. J. Smith accompanied by George Loree of Parkland and Robert Stein of Enchant spent Friday in the Carmangay district promoting the organization of a FUA local.

Miss Anne Chapman of Vulcan was a Friday night guest last week at the Doug Smith home.

Mr. and Mrs. Roy McIntyre are Calgary visitors at present, where Roy is attending Samaritan Grand Lodge as delegate from the local lodge.

Meetings of the Berrywater FUA and FWUA locals were held at the home of Mr. and Mrs. Dave Sims on Feb. 24. There was a good attendance of members of both locals. Highlights of the business conducted by the men's local is as follows:

1. An explanation of the rights of farmer occupants of land as regards to shooting of game on farm lands.

2. A discussion on the advisability of a co-operative local in conjunction with the UFA co-operative wholesale, Calgary.

3. A discussion to hold the next meeting on March 24 at the Reid Hill hall to accommodate numerous members in the Reid Hill district.

4. It was decided to forward the following resolution to the Provincial government on the council of the County of Vulcan:

"Whereas under the present set up, the different work of the Council of County is done by committees, one Committee looking after roads, one the school and one the hospital and therefore the members of the County Council elected as representatives for certain divisions do not look after the roads, school business or the operation of the busses in that division, but are allotted to some part of the County quite a distance from the area they are supposed to represent.

Therefore be it resolved that the Council of a County be elected at large."

MAJORVILLE

A meeting of the directors of the Liberty Community Association was held on Thursday at the home of Bob Scott, to discuss the organizing of a gun club. After some discussion it was decided to form a club separate from the Liberty Community Centre, as it would then be possible to acquire more members. After inspecting the calves at Fuller's the party continued on to Lewis Greaves' where a lunch of hot dogs, cake, pop and coffee was served. At this stop the members participated in placing and judging five Hereford calves. The tour then visited Bob Scott's Leonard Vooy's, Aubrey Gore's and ended the tour at Sandy Henry's. There were about 30 members and friends in the party from Bassano.

It was passed that the bill for the gifts be paid.

The next meeting will be at the home of Mrs. Paton.

HERRONTON

Two local curling teams took part in the Brant Bonspiel. Personnel were Lorne Maisey, Cam Stewart, Carl Steiner and Jim Crount; Keith Fisher, Earle Malmberg, Mel Malmberg and Brian Perry.

All Herronton is very proud of Mary Phillis Cooke who was the district winner of the IOOF speech contest at Cayley last week. There were seven contestants from Nanton, High River, Cayley and Blackie and Mary came out on top. This entitles her to a free trip to New York next summer to the U. N.

Elections for a new Students' Council were held at the school on Friday, Feb. 26. The following executive was elected: President, Elaine Tarasoff; Vice-president, Doug Davies; Secretary, Sheila Cooke; Sports Directors, Gerald Murphy and Helen Veregin; Health Directors Harold Betchel and Camille Stewart; Program Directors, Dennis Despas, Edwin McNiven, Elizabeth McNiven and Lynn Green.

Mr. and Mrs. Wm. Holoboff spent the weekend at Innisfail visiting their folks.

The High School curling team with Bev Wady as skip and Willard Davies as one of the players, won the cup in the school square draw in Blackie.

The card party and box social on March 5 sponsored by the Community Club was successful with everyone having a good time. Whist was played with high winners being Anna Maisey and John Webb and low going to Edna Weber and Cam Stewart. The floating prize was won by Danny McNiven and turned out to be a lovely angel food cake donated by Mabel Green. Following the card party, Frank McNiven auctioned off the boxes with knock-down prices varying from 50 cents to as high as \$2.50.

Recent Calgary visitors were Mr. and Mrs. Frank McNiven, Mr. and Mrs. Mac Switzer, Mr. and Mrs. Clarence Green, Anna Maisey and Mr. and Mrs. Harry Weber.

Forty-Fifth Wedding Anniversary

Sunday, Feb. 28, Mr. and Mrs. Joy Beagle celebrated their 45th wedding anniversary. They were married at Denby, N.K. and came to Canada as bride and groom to farm in the Brant and Bow City districts before moving to Arrowwood when the district was opened. They boast a family of nine children, 14 grandchildren and one great grandchild.

On March 5 a celebration was held in the FUA hall where friends and relatives gathered to wish the couple many happy returns. Mrs. Lee Williams was the very capable mistress of ceremonies. Mrs. John Irwin led a sing song Bob Beagle, Gary Beagle and Gilbert Oldfield each said recitations. A musical number was given by Marvina, Myrna and Melvin Beagle. Two contests were conducted with Mr. McDaniels and Mrs. Chet Beagle, and Mrs. A. Brown and Doug Phillips as winners. A very entertaining stunt ended the program.

Following this Mr. and Mrs. Beagle were seated at the table of honor which was decorated with pink and white streamers and centred with a beautiful three tiered anniversary cake made by Mrs. Mervin Norton.

An anniversary wish was recited by Ross Arens and Roy Kruger and a lovely twilight lamp was presented by John Beagle from the family. Then Mr. Frank Hall, life long friend, presented an electric pop-up toaster and an automatic iron from the community, with a few well chosen words, saying that he knew Mr. and Mrs. Beagle in North Dakota before they were married. The couple fittingly responded. Following this a lovely lunch was served.

Guests from out-of-town included Mr. and Mrs. S. Duncan and girls from Gleichen, Mr. and Mrs. Stu Beagle and boys from Blackie. Mrs. Herb Smith from Strathmore; Mr. and Mrs. Chet Beagle and family; Mr. and Mrs. J. Mackie and Mr. and Mrs. Rob Mackie from Calgary. It is noteworthy that all the children but one and all the grandchildren were able to be present.

For Young Men of 16

Apprentice Training for a Bright Future

THE MOST ENTHUSIASTIC SUPPORTERS of the Canadian Army's Apprentice Plan are those young men now enrolled, and their parents. A happy, clean-cut group, the Soldier Apprentices receive a combination of school study, discipline and trades training, as well as sports and other recreation.

The carefully balanced programme of Soldier Apprentice Training helps to develop and mature judgment and self-discipline. There is plenty to study and learn, but the happy environment of Soldier Apprentice Training seems to make this whole process so much easier and more pleasant.

Out of his training, the Soldier Apprentice emerges as a qualified tradesman with the opportunity of building a fine career for himself in the Army.

The young man of 16 who enrolls receives:

- thorough trades training in one of 16 trades.
- academic training - in such subjects as physics, chemistry, algebra, English.
- the general military training of the Canadian soldier.

Learning and living with other young Canadians of their own age stimulates healthy and happy comradeship as well as intense pride in their squadrons and units.

Soldier Apprentices are eligible for all Army benefits, including 30 days annual leave. They receive half pay when 16 and on their 17th birthday they receive full pay.

The young man, with a minimum of grade 8 education, who is interested in the happy, healthy and purposeful life of the Soldier Apprentice should investigate immediately.

For an interesting booklet and full information on Soldier Apprentice training, write, phone or visit the Army Information Recruiting Centre nearest your home.

Rural Electrification Need
Recognized
A new plan of assistance for farmers who wish to have electri-

city installed on their farms has been introduced by the Co-operative Activities Branch of the Department of Industries and Labour through the Rural Electrification Revolving Fund Act, passed at the last session of the Legislature.

The Act provides for a fund to make loans to rural electrification associations enabling them to meet capital expenditures involved in the construction of rural electrification transmission lines. Farmers may bring electricity to their homes at an initial cost of \$150 or 15 percent of the total estimated cost, the balance to be paid over a ten-year period at an interest rate of 3 1/2 percent.

The revolving fund, which was established with \$3,000,000, will be supplemented annually until it reaches a total of \$10,000,000 at which figure it is expected annual repayments will be sufficient to take care of any new loans required.

A rural electrification association, wishing to finance the construction of lines under the provisions of the Rural Electrification Revolving Fund Act, may borrow up to 85 percent of the total cost of the project, from the Alberta Government. Loans will be made directly to the association, and each association will be responsible for apportioning its indebtedness among its members.

The first rural electrification association was the Springbank Association, west of Calgary, incorporated April 30, 1947. That year, seven co-operative rural electrification associations were incorporated, and today, the original seven serve approximately 600 farms.

Since the incorporation of the first rural electrification association, over 14,000 farms throughout Alberta have been electrified under this plan. At March 31, 1953 there were 19,600 electrified farms in the Province. At the end of 1953 over \$13,000,000 worth of transmission lines had been built and 170 associations had borrowed under the plan. At the present time, there are \$4,000,000 outstanding on these guaranteed loans.

Under the new Revolving Loan Fund, both new associations for rural electrification and extensions to existing electrification areas can be financed through the Provincial Treasury. In forming a new rural electrification association, a group of at least ten farmers, working with the power company serving that particular area, submits to the Alberta Power Commission, a map showing the proposed route of the line and the area to be served by the construction, together with a memorandum outlining the total estimated cost of the project, the number of farmers in the area who will accept the service, and those who are unwilling to accept service.

For those who prefer a wet treatment, Leytosol "C" is most effective in the control of soil-borne diseases.

In wire worm areas, effective control of this menace may be assured by the use of Leytosan G-91. Leytosol G-91 is a dual treatment possessing all the qualities of Leytosan in controlling soil-borne diseases.

It pays to do business with Britain because Britain, in turn, is one of Canada's best customers. When you buy British products such as Leytosan you help sell your own grain.

Just to prove how little it costs
to run this tractor for 6 months ...

WE'LL BUY HALF YOUR FUEL OURSELVES

Yes, you read it right. Trade in your old tractor on a new Oliver Diesel wheel tractor, and we'll pay half your new tractor's fuel bill for 6 months straight. We mean any 6 months' work on your farm even your six heaviest work months, for the longest hours you want to work. Just bring in your fuel bills to show what you spent, and we'll give you a cheque for half.

WHY WE'RE MAKING YOU THIS OFFER

We figure if we offer to pay half your fuel, you'll keep track of your costs. That's all we want; for you to see how low they'll be. You'll find that you're burning only 6 gallons of fuel where your gasoline tractor burned 10—and buying diesel fuel for a whole lot less.

We're betting you'll say you'd never go back to gasoline. Especially when you find that your upkeep is as low as your fuel cost. Your Oliver Diesel has the simplest engine ever put in a farm tractor—no carburetor, no plugs, fewer moving parts—very easy to keep in top working order.

NO STARTING ENGINE, NO STARTING FUEL

Oliver Diesels start and run on diesel fuel. They give you instant starts even in freezing weather. They withstand a longer lay-up than any spark ignition tractor. Best of all, Oliver makes a diesel in any size you want—two-plow, three-plow, four-plow—whatever size is best for operations.

YOU'RE PAYING FOR A DIESEL—

WHY NOT HAVE ONE?

That's what users say, with the high fuel cost of a gasoline tractor, you're paying for a diesel whether you have one or not. That's why farmers by the thousands are going over to low-cost diesel power. Why not buy your diesel now, start your savings now, while this special offer still holds.

Alberta Wheat Pool Objectives and Achievements

While Alberta Pool Elevators is an efficient large-scale business enterprise, it is something more.

It is a creation of the agricultural co-operative movement and as such is closely knit to the men and women on the land who believe in the principles of co-operation.

Agricultural co-operation has two sides which, balancing each other, gives the movement strength. One side is the commercial and the other is the social.

The commercial side is to be regarded as the means to the end of improving the living conditions of rural people.

With that objective in view, Alberta Pool Elevators has, over the years, provided surplus earnings to the extent that \$15,390,441 has been distributed to the membership in the form of patronage dividends and redemption of reserves.

In addition reserves to the value of \$9,530,362 have been distributed as patronage dividends.

Furthermore, the operation of Alberta Pool Elevators has kept handling charges low and provided a high standard of service to patrons.

The social purpose of the farm co-operative movement is to raise the cultural standard of farm people and prepare them to assume their full share of responsibility in the nation's economic life.

Every Pool elevator may be said to be a sentinel guarding the interests of the grain producers in that locality. Each one also serves as a link connecting all parts of a great democratic movement working on behalf of the people engaged in Canada's basic industry.
